Driven by exponential advancements in AI, FinTech, Smart Living, and other digital technologies, innovation and technology (I&T) are fast becoming a cornerstone of Hong Kong's economic and social progress. The Hong Kong SAR Government has consistently advocated leveraging digital capabilities, maintaining its longstanding support for the growth of the digital economy. This steady support coupled with the quest for new quality productive forces, has fuelled an environment ripe for digital transformation and upgrade in Hong Kong.

The widespread embrace of digital technology has unleashed unprecedented momentum in 2023/24, propelling the development of innovation, technology, and the digital economy. We have worked relentlessly to nurture start-ups and innovative entrepreneurs, attract investment for start-ups, foster the development of a comprehensive I&T ecosystem, and drive the integration of new and traditional economies across sectors.
